

MULTINATIONAL CHEMICAL MANUFACTURER CHOOSES ONSOLVE BY CRISIS24 MASS NOTIFICATION

THE CHALLENGE

- One of the world's largest plastics, chemicals, and refining companies sought a mass notification solution with broad functionality — including C-Suite messaging, IT alerting, and geo-targeted alerts for critical events.
- The customer was not selecting a product based on a simple feature comparison — they were seeking a vendor partnership. The OnSolve Mass Notification team conducted a multiday workshop to give users and administrators a high-level, hands-on experience using the customer's own success criteria.

CUSTOMER'S INDUSTRY

Chemical Manufacturing
