

# The Preparis Platform

**Organizations face continuous threats that can disrupt operations. Unfortunately, implementing an incident management program that fits your organization's specific needs is challenging.**

The Preparis Platform makes preparedness easy so your organization is ready to respond to any disruption or critical event with emergency notifications, business continuity planning, and incident management.

## Preparis Alerts

### **Streamline emergency communications.**

Preparis Alerts allows you to reduce complexity with simplified, cross-stakeholder communication and alerts.

- Available for desktop, iOS, and Android devices
- Bi-directional messaging
- Proactive conference calling
- Five forms of communication
- Cloud-based document sharing
- Online training and expert content
- Seamless integration with your HR system
- Incident reporting and history for auditing purposes

## Preparis Planner

### **Form a plan that makes sense for you.**

Preparis Planner allows you to stay focused and prepare for anything with a simple, self-guided solution for continuity planning.

- Create a BCP that is prepopulated with necessary data and processes from 30+ years of BC expertise
- Generate an overall plan or a plan by department or location
- Leverage a BIA tool to capture RTOs
- Monitor and measure performance and metrics in real time
- Achieve audit-ready compliance
- Create an executive summary of the process to share with stakeholders

## Preparis Incident Manager

### **Exercise, test, and mobilize your plan when it matters most.**

Power up a rapid, coordinated incident response effort with ease using Preparis Incident Manager.

- Log in, set up a virtual war room, and share action lists that ensure every team member knows where to go and what to do first
- Work your plan supported by dashboards that deliver 360° visibility of recovery efforts and update in real time
- Proactively identify potential fail points, flex to the next need, and restore operations quicker
- Raise issues or critical dates that would affect your organization's recovery

## Success Story

### Problem

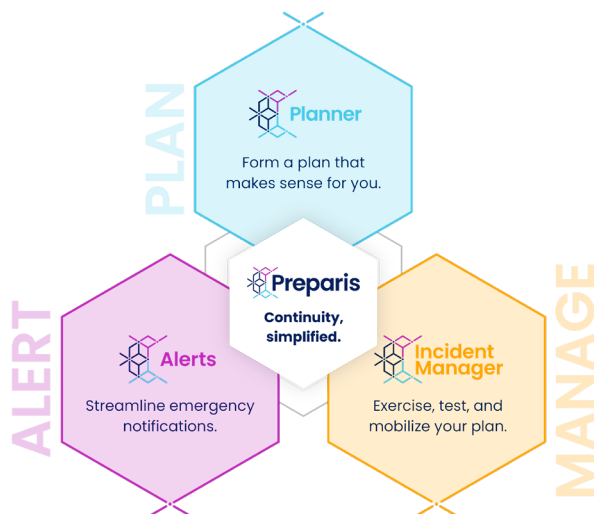

A Los Angeles-based organization was concerned about its employees' safety in offices throughout the country and lacked a formal business continuity plan.

### Preparis Solution

Preparis Planner and Preparis would provide a comprehensive business continuity plan and robust communication tool to protect employees, mitigate risk, reduce downtime, and maintain compliance.

### Result

Within 48 hours, the team had access to the Preparis platform and employee information was successfully uploaded, allowing them to send messages to the organization; their first test message was successfully delivered to 100% of employees. Additionally, the team had access to Planner and was able to build out their plan and grant access to necessary employees.

Preparis **makes our jobs easier** because we can rely on **one resource to offer expert answers** in each environment on so many topics.

**Chief Human Resources Officer**  
Alston & Bird, LLP

Preparis Alerts is mass notification, learning, storage, it's cloudbased, **it is everything I needed in one platform.**

**Global Safety & Security Director**  
BMC Software

## Preparis Platform

The Preparis Platform empowers real business leaders to make continuity planning a strength of their business through a simple, self-guided workflow. Built upon the principles of visibility, knowledge, and control, Preparis is the first platform to remove the complexity from continuity and put the power in your hands—right where it belongs.

The only integrated business continuity solution in the market that **helps you plan, train, test, and alert—all in one.**
